

ABSTRACT OF THE DISCLOSURE

A brush includes a combing unit that projects outwardly from a mounting portion of a brush body, and that includes a plurality of spaced apart combing plates and a plurality of auxiliary combing members. Each of the auxiliary combing members is disposed between an adjacent pair of the combing plates, and has a plurality of ribs. Each of the ribs has a top portion. The top portions of each adjacent pair of the ribs angle away from each other to define a V-shaped groove therebetween.
